INCIDENT Weather Forecast

FORECAST NO:

NAME OF FIRE:

NEU Wind Complex

PREDICTION FOR: SAT Day/Night SHIFT

UNIT:

NEU

SHIFT DATE:

Oct. 14/15 2017

SIGNED: Mike Smith mike Smith

TIME AND DATE

Incident Meteorologist

FORECAST ISSUED: 1900 10/13/17

...Red Flag warning through Sunday morning for gusty north winds and low humidity...

WEATHER DISCUSSION: Surface high pressure dropping into the northern Great Basin will bring gusty northeast winds to the area today. These winds should be the strongest during the morning hours when the main upper level winds combine with the more typical downcanyon winds. Morning humidity recovery will be quite low with very low afternoon humidity expected. The winds should decrease somewhat in the afternoon and evening hours but breezy northeast winds will continue through Saturday night as they combine again with the normal drainage winds. Very dry conditions and warmer temperatures will continue into Sunday but with much lighter winds as high pressure aloft builds over the west coast. Warm and dry conditions with light winds will continue Monday before a slow cooling trend starts mid week.

WEATHER FORECAST:

WEATHER: Fair skies.

TEMPERATURES: High temperatures 76 to 81.

HUMIDITY: Minimum humidity 11 to 16% after poor overnight recovery of 25-35%

20 FT WINDS:

ABOVE 1000 FT ELEV - Northeast winds 6-10 mph with gusts to 15-20 mph through about noon then northwest 3-6 gusts to 12 mph. Winds returning to northeast after sunset.

BELOW 1000 FT ELEV - North 6-10 mph with gusts to 15-20 mph beoming northwest after about noon 6-10 mph gusts to 15 mph. Winds returning to north after sunset.

STABILITY/INVERSION: Weak inversions in the morning. Generally stable conditions in the afternoon.

OUTLOOK FOR Saturday Night: Fair skies. Weak inversions due to breezy winds. Minimum temperatures 51-56. Very poor RH recovery at 25-35%. Winds...Above 1000 feet elevation, becoming northeast after sunset 2-5 mph increasing after midnight to northeast 3-6 gusts to 12 mph. Below 1000 feet, winds becoming northeast after sunset 3-6 mph gusts to 12 mph evening hours. Winds decreasing all areas by sunrise.

OUTLOOK FOR SUNDAY: Fair skies. Highs 77-82. Minimum RH 9-14% Winds above 1000 feet northeast 1-4 gusts to 8 mph becoming southwest after about noon. Winds below 1000 feet northeast 1-4 gusts to 8 mph becoming southwest to northwest after about noon.

EXTENDED FORECAST OUTLOOK FOR MONDAY: Fair skies. Little change in temperatures or RH from Sunday. Mainly light terrain driven winds.

EXTRA INFORMATION: Sunrise: 7:15

Sunset: 6:27

FIRE BEHAVIOR FORECAST

INPUTS

WEATHER SUMMARY: See Attached Spot Weather Forecast

RED FLAG WARNING THROUGH SUNDAY MORNING FOR GUSTY NORTH WINDS AND LOW RH

WEATHER: Day: Fair skies

Night: Fair skies, weak inversion

TEMPERATURES / HUMIDITY: Day: 76-81 F Max Temperature / Min Humidity: 11%-16%

Night: Min Temperature 51-56 F / Max Humidity: 25%-35%

20 FT WINDS: Day: ABOVE 1000 FT ELEV - Northeast winds 6-10 mph with gusts to 15-20 mph through

about 1200 then northwest 3-6 mph with gusts to 12 mph

BELOW 1000 FT ELEV - North 6-10 mph with gust to 15-20 mph becoming northwest

after 1200 to 6-10 mph with gusts to 15 mph

Night: ABOVE 1000 FT ELEV: Becoming northeast 2-5 mph after sunset increasing after midnight to

northeast 3-6 mph gusts to 12 mph

BELOW 1000 FT ELEV: Becoming northeast 3-6 mph by after sunset, 3-6 mph gusts to

12 mph evening hours

OUTPUTS

FIRE BEHAVIOR

GENERAL: The fires were burning in a mix of grass and brush with stands of timber and timber litter that are extremely dry and have a heavy fuel loading. The initial fire spread was driven by high winds and low humidity with long range spotting. With the predicted northeast wind, smoldering litter could cast embers and produce spot fires in receptive fuel beds, especially where timber litter fuel loading or heavy grass crops are high. Winds that align with drainages could lead to increased rates of spread and the possibility spotting. Smoldering portions of the fire can increase in activity in the evenings with the northerly wind and poor humidity recovery.

Probability of Ignition: 87% 100 HRFM: 90th Percentile

FDFM: 3% LAL: 1 ERC: 65 (77 90th Percentile)
1000 HRFM: Near 90th Percentile

SPECIFIC: *** RATES OF SPREAD AND FLAME LENGTHS ARE FOR NEW STARTS ***

R	ate of Spread (f	ft/min)	Flame Len	gth (in feet)	Spotting Distance (in miles
Grass	Head	55-223	Head	8-19	1/4 – 3/4
	Flank	5-19	Flank	3-6	
	Backing	2-10	Backing	2-5	
Brush	Head	82-180	Head	19-31	1/4 – 3/4
	Flank	7-15	Flank	6-10	
	Backing	4-8	Backing	5-7	
Timber	Head	12-20	Head	4-8	1/4 – 3/4
Litter	Flank	1-2	Flank	1-3	
	Backing	Less than 1	Backing	1-2	

AIR OPERATIONS:

Gusty northeast winds in the area. Winds should be strongest in the morning around 0800

Sunrise: 0714 Sunset: 1825

SAFETY

- New fires can grow rapidly in light flashy fuels.
- Exceptionally dry fuels warrant a high degree of caution.
- Don't become complacent! Identify your safety zones and escape routes.

WIND COMPLEX SAFETY MESSAGE

We Are ALL accountable for SAFE behaviors

INCIDENT: Wind Complex CA-NEU-026295

DATE: October 14, 2017

TIME: 0700-0700

Situational Awareness at All Times!

When It comes to Safety, the only thing worse than being oblivious to the unknown is ignoring the obvious....

Driving: Slow Down! Drive defensively. Expect the unexpected around every curve. Drive with headlights and seatbelts on. Coordinate your movements on one-lane roads.

Personnel: Manage yourself and those around you for fatigue. Drink fluids frequently and eat nutritious food regularly. As fatigue increases, injuries tend to increase also. Keep an eye on your crew and partner. Stay engaged and make smart decisions.

Heavy Equipment – Stay alert working around heavy equipment working in the area, monitor safe working distances, utilize communication with heavy equipment operators (radio or hand signals), avoid working below dozers, watch for rolling material.

Mop Up: Conduct a thorough briefing for all personnel. Use all PPE, including eye protection. Maintain proper spacing. Be alert for stump holes. Evaluate unburned islands and stay alert.

Fire Behavior: Fuels are receptive to fire spread. Be alert to changes in wind direction and expect changes in fire behavior. Be prepared for new fires.

Hazard trees: Survey your work areas for hazard trees, flag and restrict access, use only qualified personnel for tree felling. Dead trees from bug kill. Review and follow **Hazard Tree Safety**, pg. 22-23 in your IRPG.

Review your ICS 206 and know what to do in the event of an (IWI).

Lookouts, Communications, Escape routes, Safety zones

Tailgate Safety

- Accountability: everyone checks in and everyone checks out. Supervisors know where their crews are at all times
- Communication: everyone knows the com-plan
- **Briefing:** everyone knows the plan and the contingency plan
- Safety gear: everyone has the appropriate safety gear in good working condition
- LCES: they are clear and made known to everyone

Fire Suppression Repair

Stay alert working around heavy equipment:

- Utilize communication with heavy equipment operators (radio or hand signals).
- Monitor safe working distances
- Avoid working below dozers, watch for rolling material.
- Maintain accountability of personnel

Incident Commander: Glenn Patterson

WIND COMPLEX INCIDENT RISK ANALYSIS (ICS 215a)

	HAZARDOUS ACTIONS/CONDITIONS	MITIGATIONS / WARNINGS / REMEDIES							
	DRIVING HAZARDS	Slow Down!							
, ,		Drive defensively! Expect the unexpected around every	curve.						
ALL		Drive with headlights and seatbelts on.							
1		Narrow dirt roads with limited passing room, coordinate your movements.							
		Civilians are still in the Evacuation Order areas.							
		Use warning devices when operating near traffic.							
	MOP UP/BACK HAUL	Conduct thorough briefing for all personnel (inside rear	cover of IRPG)						
		Use all PPE, including eye protection. Be alert for stump	holes and root cavities						
ALL		Minimize exposure to smoke and rotate personnel into o	lean environment as						
		practical							
		Back haul all trash and equipment off the line and return							
		When lifting equipment, lift with your legs and not your							
	FATIGUE	Be alert for signs of fatigue and take breaks as necessary							
		Monitor incoming resources for level of fatigue. Drink v	water before, during and						
ALL		after shifts, up to 1.5 gal. per shift. Rest when you can.							
		Be alert for signs of heat stress in yourself and others; u	se the buddy system.						
		Eat small meals often and when possible							
		Drink electrolyte drinks at a 3 water to 1 sport drink rati							
ALL	COMMUNICATIONS	Monitor for changes in the communications plan. Revie							
		Monitor command, tactical, and air to ground frequencies.							
	HEAVY EQUIPMENT	Watch for rolling material. Monitor safe working distances. Avoid working below Dozers. Maintain Situational awareness around heavy							
ALL		equipment.							
		Utilize communication with the operator (radio or hand	cionale)						
	HAZARD TREES	Identify and Isolate the area to provide for the safety of							
ALL	HAZARD I KEES	Flag and make proper notifications. Many pockets of dead trees.							
XXDL		Do Not Fall trees out of your certification level.							
	LINE CONSTRUCTION	Conduct thorough briefing for all personnel (inside rear	cover IRPG).						
		Ensure LCES in place prior to engagement (IRPG p. 7).							
ALL		Establish adequate safety zones (IRPG p.8).							
		Use Downhill Line Checklist (IRPG p. 9).							
		Follow "Look Up, Look Down, Look Around" procedu	res (IRPG p. 3-4).						
		Utilize Risk Management Process (IRPG p.1).							
	POWER LINES	Follow Power Line Safety guidelines (IRPG pg.24.)							
		Communicate power line hazards to immediate supervis	or and hazard flag						
ALL		accordingly.							
		Flag area around downed power lines and deny access.							
		Treat all downed power lines as energized.

8. MEDICAL EMERGENCY PROCEDURES

EMERGENCY FREQUENCY: AIR GUARD

LINE EMERGENCY

Crew Supervisor will contact Division Supervisor with patient complaint/condition and location.

- Division/Group Supervisor contacts:
 - 1. Closest EMS resource
 - 2. Communications
- Communications contacts:
 - 1. Ground or Air ambulance as requested
 - 2. Operations
 - Safety
 - 4. Medical Unit
- Division Supervisor or designee will serve as point of contact and run medical emergency on assigned channel.
 - A pre-assigned tactical frequency (i.e. CALCORD) should be used for IWI and only for duration of need.
- Communications will clear command channel for emergency traffic as needed and only for duration of need.

CAMP EMERGENCY:

Contact Communications for 911 response following local procedures.

- Communications contacts:
 - Medical Unit Leader
 - -Crew Supervisor
 - -Logistics
 - -Comps/Claims
 - 2. Safety

Suppression Repair Message

The following are repair task that crews can conduct as available on the fireline.

Handlines

- Install waterbreaks when necessary to prevent erosion.
- Handlines along the contour, on ridge tops or other flat areas will not require waterbreaks if the line will not concentrate water runoff.
- Waterbreaks on handlines shall be cut a minimum of 6 inches into firm ground and shall have an unobstructed discharge at the outlet.
- Remove all trash from the lines so it can be backhauled.

Dozer Lines

- Move hose lines to one side of the line so that it can be accessed and repaired by equipment if necessary.
- Install waterbreaks as feasible focusing on very steep areas first.

Roads

- Remove berms from outside of roads.
- Clean Culvert inlets of debris from suppression activities.
- Clean inside ditches of debris from suppression activities.

General Repair Items

- Report any damage to property including gates, fences, watersources, culverts or any other damage caused by suppression activities.
- Remove all trash generated by the incident.

0	Fireline and Road Gradient (%):	<u>0-10</u>	11-25	26-50*	<u>>50</u> *
	Fireline waterbreak spacing	150'	100	75'-50'	50'-25'
	Road waterbreak spacing	150'	100	75'-50'	N/A'

Fire Suppression Repair

It is time to begin planning for the fire suppression repair efforts. A fire suppression repair plan will be developed for the NEU Wind Incident. To accomplish our goals we need to identify problem areas, prescribe the needed work, and ensure that the work is completed.

In an effort to identify problem areas we have created the attached form for use by the Branches and Divisions. As noted on the form, items to consider include: fences and gates damaged during the incident; road and watercourse crossings repairs; culverts and watercourses needing cleanout; fire breaks in need of waterbarring; trash and equipment pickup.

Use the attached form(s) to document locations where repair work may be necessary. Use maps to show locations. GPS's can be down loaded by GIS. Return forms to the Suppression Repair Unit at the end of your shift.

Fire Suppression Repair Checklist CA-NEU-026295

NOTE: List type of material/equipstakeside, handcrew, etc.)	ment/personnel needed (e.g., fencing materials, tools, dozer, back

WIND COMPLEX PUBLIC INFORMATION

Incident Information Line: 530-823-4083

Media Line: 916-203-4153

MEDIA

<u>California State Penal Code Section 409.5(d)</u> allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire
 personnel cannot provide members of the media with authorization to enter private
 property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post**:

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

PICTURES AND VIDEO OF INCIDENT

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND

The Information staff will manage Lost and Found items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages.

TRAINING SPECIALIST MESSAGE

Sunday, October 15th at 1500 hrs. is the deadline to close the training package for the Wind Complex Incident.

Regardless of home agency, in order to ensure incident documentation of any training assignment – You <u>must</u> <u>close</u> your assignment with the Training Specialist.

Bring a *completed* individual performance rating

ICS 225/226Taskbook/Qualifications card And Evaluator's Recommendation to the exit interview.

Remember: NO DOCUMENTATION - IT DIDN'T HAPPEN!

Thank you

Claudia Soiza
949 632-7813

WIND COMPLEX FINANCE MESSAGE

COMP / CLAIMS

- Vehicles rented by CAL FIRE are considered department vehicles
- All accident reporting procedures must be followed, including reporting the accident to COMP/CLAIMS and SAFETY
- All required forms and documentation shall be completed and brought to COMP / CLAIMS

SHIFT TICKETS

- DIVS and OPBD must complete shift tickets for all hired equipment, including runners and fallers
- Turn completed shift tickets into TIME UNIT daily

OFF SITE FEEDING

- Resources staying in Rocklin or Roseville have authorization to feed off site, (dinner only)
- Follow Per diem rates, make the purchase and bring copies of receipts and AO 341 into Finance
- All other resources must feed in Base Camp

HIRED EQUIPMENT VENDORS

 Please bring your agreements into the TIME UNIT to start the documentation process

FEDERAL TIME KEEPERS

Onsite and located in the finance shop

FINANCE CONTACTS

- Comp/Claims 24/7 Phone: 925-407-6363
- Cal OES Rep, Chief Zander: 916-712-6771
- Finance Section Chief, Bill Winter, 805-903-3491
- Deputy Finance Section Chief, Dale Barnett, 530-524-5623

WIND COMPLEX PUBLIC INFORMATION

Incident Information Line: 530-823-4083

Media Line: 916-203-4153

MEDIA

California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire
 personnel cannot provide members of the media with authorization to enter private
 property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post**:

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

PICTURES AND VIDEO OF INCIDENT

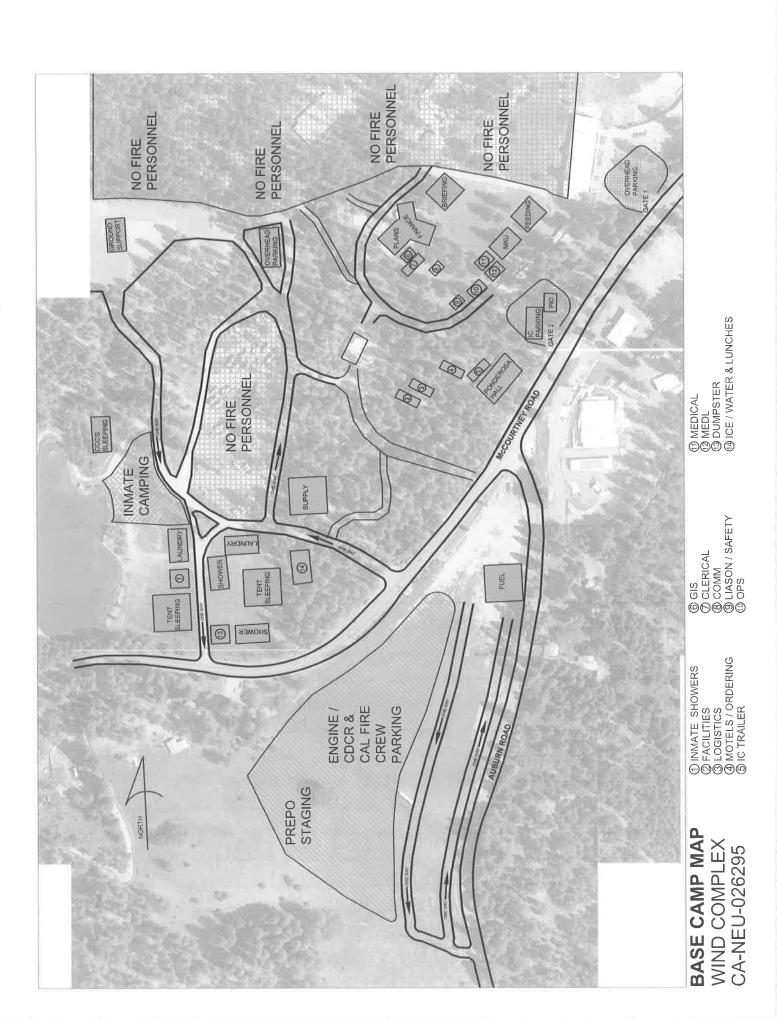

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

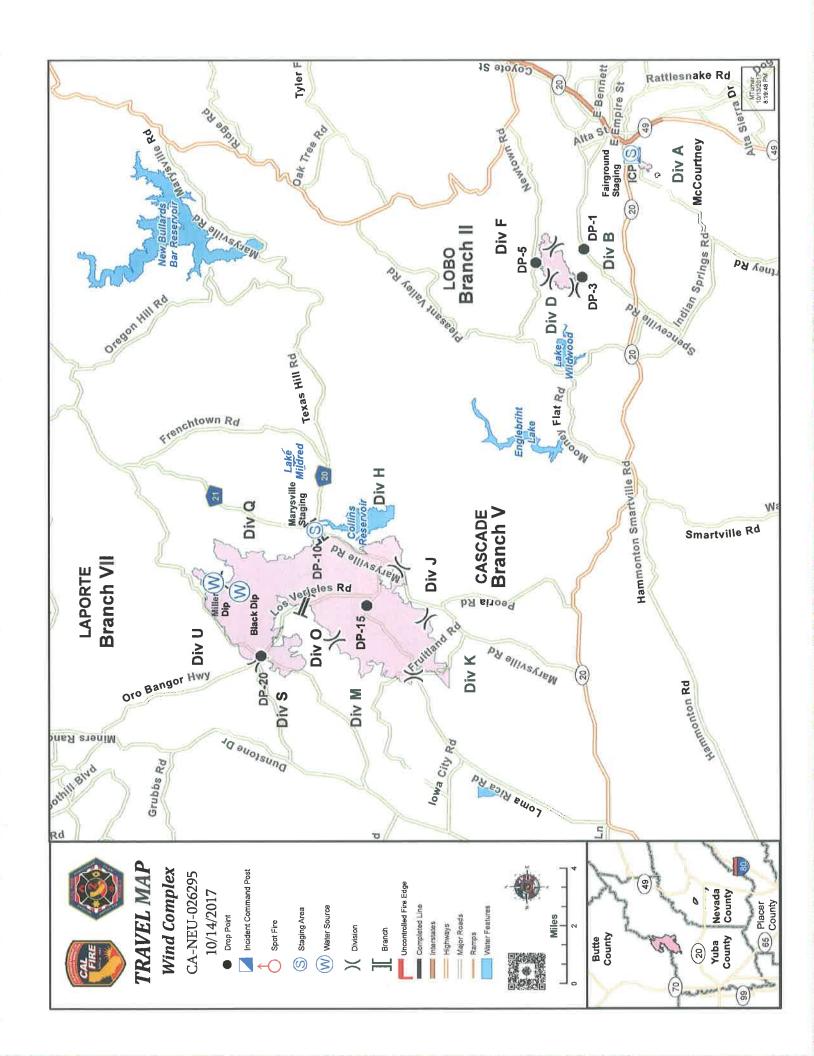

LOST AND FOUND

The Information staff will manage Lost and Found items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages.
